- a) Upload your complete code as a zip file to the google drive of your team leader or one of your team members and provide a link to the google drive code (make sure to give permission so that anyone has the link can download the code)

Google drive link here: https://drive.google.com/drive/folders/1UHQqng9sYGwib-tioNZnPac0orw7t-C5?usp=drive_link

- b) Link for a video demo (up to 5 minutes) demonstrating working functionality of the software (you can record this as a YouTube video or upload your video to the google drive of your team leader or one of your team members and provide a link to the google drive video)

Note: I couldn't talk about the search bar on the buyer page due to time constrain, and I just want to inform that even the search bar is working.

YouTube link: <https://youtu.be/zgM3lpo9wzw>

- c) Screenshot of your GitHub repository showing commits made by each member of the team. If you have used any other repository like bitbucket, screenshot of that repositor is acceptable.
